## SWEDEN - LAND OF THE MOOSE (SOUTH)

### *Small Driven Hunt for a Group*

This hunt is conducted for a small group, and will be a combination of stalking in the mornings in areas where we expect that the moose will be feeding. During the days the hunt will be a combination of going with the dog handler and sitting and waiting in high seat. This mode of hunting is known to provide good results. For the hunter who appreciate fair chase hunt this is one of the most challenging hunts.
