## SWEDEN - LAND OF THE MOOSE (SOUTH)

### *Hunted and Stalking with Moosedog 1:1*

What is so unique when hunting moose in Sweden, is the use of dogs. We are offering a few hunters the possibility of an exclusive moosehunt in the wilderness of Sweden, hunting best known for its thrilling intensity.

The hunt is conducted on a 1:1 basis, and will be a combination of stalking in the mornings in areas where we expect that the moose will be feeding. During the days the hunter will team up with the doghandler and his well trained and highly skilled dog. This mode of hunting is known to provide good results. For the hunter who appreciate fair chase hunt this is one of the most challenging hunts. Apart for testing the skills of the hunter it also requires a good condition.

There is no alternative, if you are interested in trying and experiencing moosehunting in Sweden, at its best. There is also a possibility for Capercaille, Wildboar and Roebuck.
