HUNTING RED-STAG IN AUSTRIA

Record trophies due to very good Red-deer population

Due to careful selection and a long lasting hunting tradition, we enjoy a very healthy Red-Deer population.

This allows us to harvest extremely strong Red-Stag trophies in medals quality every year (12 kg and more). Of course our guests have the choice of trophy quality depending on availability.

We hunt Red-Stag from August to January. Chances for a successful hunt are nearly the same during this period. We have good Red-Stags in all

our hunting areas. We either try to stalk the game or wait for the game in blinds.
